

I am both a listener and a supporter of KLOVE radio station. This is the only radio station I have come to listen to simply because it is so uplifting, encouraging, positive, and edifying. The music truly does something to my spirit that cannot be put into words. Other stations have disc jockeys who seek only to glorify themselves by putting others down or swearing or making lude jokes and comments. With KLOVE all you hear is positivity and kindness. Another wonderful thing about this station is they truly care about their community. They offer prayer whenever you need it and the times when I have talked to one of their staff in person, they were extremely polite, friendly and loved to spend some time talking to me about my life and my walk with God. I know that many people have been led to Christ through hearing this station's music or spiritual teachings and in turn, they have found joy and hope that they later talk about and allow KLOVE to broadcast. I cannot tell you how amazing it is to hear their stories. To replace this station with a Low Power FM station would be to take away something truly valuable to all of us who listen to, support and who are yet to listen to KLOVE.

Sincerely,  
Lorene Nielsen
